

DEEPAK SIKHWAL

Frontend Developer | Full Stack MERN Developer

Bikaner, Rajasthan | +91 63781 96988 | deepaksikhwali07@gmail.com

GitHub: github.com/deepakpandit31 | LinkedIn: [linkedin.com/in/deepak-sikhwali-67a976287](https://www.linkedin.com/in/deepak-sikhwali-67a976287) | Portfolio: deepakpandit31.github.io/Portfolio

PROFESSIONAL SUMMARY

Frontend / Full Stack MERN Developer skilled in React.js, Next.js, Node.js, Express.js, MongoDB, and TypeScript, with hands-on experience building responsive, scalable, and accessible web applications. Strong in REST API development, UI/UX-focused frontend development, secure authentication (Clerk), and AI integration using the Gemini API and prompt engineering. Strong problem-solving and debugging skills, with a passion for clean, maintainable code and modern full stack development. Seeking a Frontend or Full Stack MERN Developer Internship.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Java, Python, C, C++

Frontend Development: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Responsive Design, UI/UX

Backend / Full Stack Development: Node.js, Express.js, REST API Development & Integration, MERN Stack

Databases: MongoDB, MySQL, Convex

Authentication: Clerk, Role-Based Authentication, Authorization

AI Integration: Gemini API, Prompt Engineering

Tools & Deployment: Git, GitHub, Vercel, Netlify

Additional Strengths: Problem Solving, Debugging, Cross-Browser Compatibility, Team Collaboration

EXPERIENCE

Frontend Developer Intern — InAmigos Foundation (Remote)

Jul 2026 | 2 Weeks

- Built a responsive NGO website prototype using HTML5, CSS3, and JavaScript, improving cross-browser compatibility and usability across devices.
- Engineered reusable UI components with a focus on responsive design, streamlining future development and maintenance.
- Presented the prototype to the team for review, collaborating on feedback to align the UI with project requirements.

Front-End Web Developer Intern — Code Alpha (Remote)

Jan 2025 - Feb 2025

- Built three responsive web applications using HTML5, CSS3, and JavaScript, following modern frontend development best practices.
- Implemented responsive layouts with Flexbox and CSS Grid, ensuring consistent UI across mobile, tablet, and desktop devices.
- Debugged and resolved UI issues, improving code maintainability and readability.

PROJECTS

Smart Study AI Assistant — MERN, Gemini API, REST API

GitHub: github.com/deepakpandit31/Smart-Study-AI-Assistant

- Solved the challenge of turning raw notes into structured study material by building an AI-powered MERN web application.
- Integrated the Gemini API with a Node.js/Express backend using prompt engineering and REST APIs to generate summaries, flashcards, quizzes, and mind maps in real time.
- Designed MongoDB collections to store notes, AI-generated content, and learning history, enabling reliable data retrieval across sessions.
- Built a responsive React.js interface for file upload and content interaction, improving accessibility of AI-generated study material.

Trinetra — Full Stack Remote Technical Interview Platform — Next.js, TypeScript, Clerk, Convex

GitHub: github.com/deepakpandit31/remote-interview-platform

- Solved the challenge of conducting remote technical interviews by building a full stack platform with live video calling, scheduling, and coding assessments.
- Implemented secure role-based authentication and authorization using Clerk to separate interviewer and candidate access.
- Integrated Stream Video SDK and Monaco Editor to deliver real-time video interviews and live collaborative coding assessments.
- Built real-time interview scheduling and data synchronization using Convex, reducing manual coordination between interviewers and candidates.

Pryzo — Smart Product Price Tracking Platform — Next.js, React.js, Tailwind CSS

GitHub: github.com/deepakpandit31/Pryzo

- Solved the problem of manually monitoring product prices by building an automated price tracking web application.
- Integrated product data APIs with automated email notifications to alert users immediately when tracked prices dropped.
- Designed a responsive dashboard using Next.js, React.js, and Tailwind CSS, simplifying product management and price history review.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science and Engineering

Mewar University | 2023 - 2027 | CGPA: 7.86

TRAINING & CERTIFICATIONS

- Artificial Intelligence and Machine Learning Training — CTTC Bhubaneswar (May 2025 - Jun 2025)
- C Programming Basics — Simplilearn
